

Approved For Release 2002/05/09 : CIA-RDP82R00129R000100100007-2

Office Memorandum • UNITED STATES GOVERNMENT

TO : Executive Secretary,
United States Information Board

DATE: 21 Nov 1958

FROM : Chief Telephone Section/Office of Logistics

SUBJECT: White House Security Switchboard Telephone Service, Sterling 3-0333

1. In keeping with our discussion of 20 November 1958 re-affirmation of the requirement for installation of White House security telephone service in the residences of the USIB members was obtained by the Director of Logistics via telephone with Mr. [redacted] Assistant to the Director on 20 November 1958.

2. It is my understanding that all members of the board will be notified that arrangements are being made to install this service in their homes. At the time this announcement is made it is requested that each member be informed that they will be contacted by the Army Signal Agency concerning the date the telephone company installation personnel may gain access to their residence to install the telephone instruments. It is requested that the Telephone Section be notified at such time as the members are informed in order that the Army Signal Agency may be requested to proceed.

3. It would be most helpful if whenever a change in the USIB membership takes place, the CIA Telephone Section, extension 4441 be notified. This procedure will insure the prompt issuance of orders for the discontinuance of this service.

25X1A

① Announced at USIB meeting on 25 November by
Mr. Duller

② Mr. [redacted] advised on 25 November and he said nothing more for Secretariat to do. Will let us know when work completed.

L.H.
